Free astrology online reading

- Planets** in birth chart describe a certain process of what is happening - eg. Mars fights, Jupiter expands, Saturn limits
- Sign** in which the planet is located determines how the planet is manifesting itself, for example Mars may manifest itself in a way Aries would behave (vigorously and irritably) or in the manner of Taurus (more slowly, gradually and consistently)
- Houses** show special areas of everyday life, in which all this takes place. Location in a house shows whether, for example Mars manifests in relationships (7th house), employment (6th house), family (4th house) or elsewhere.

Hint:
Planets show us **what** is happening
Signs show us **how** it is happening
Houses show us **where** it is happening

- Optional:**
 - Precise time entry in seconds
